

Aphasia, Apraxia, and Dysarthria for Stroke Survivors Support Group

- Did you know up to 40% of stroke survivors experience communication problems, either speaking and/or listening?
- Educational and supportive. You don't have to go through this alone!
- Lead by stroke survivors who have experienced communication problems first hand; we know your frustration!
- You don't need to speak and communication partners are welcome to attend with their stroke survivor.

When: Stroke Survivors CAN!, 3023 E Copper Point Dr., #108, Meridian, ID 83642

Time: 1030-noon, every other week. Next meeting May 25.

Format: In person or online!
