

What's our Why?

Kevin Rhinehart (our fearless leader) experienced a debilitating stroke in 2012 and has refused to let it define him. "I feel like I was able to change lives before my stroke...I want to still do that AFTER my stroke".

Bottom line? GRIT DON'T QUIT!
Kevin is the epitome of true grit. You combine that with Dr. Ann Phillip's experiences and resources as a physical therapist and we have Victors over Stroke!

Resources + Support = Empowerment & Hope
